

- 1.-K-LOVE serves my spiritual needs and keeps me focused.
- 2.-if we were to lose K-LOVE's programming this community would suffer as it is the one true source for positive and encouraging programming that promotes kindness and love.
- 3.K-LOVE and what they provide is in the best interest of the community because it truly is positive encouragement, no one else provides this kind of programming, one that talks to peoples hearts and wakes them up to their Creator. A lot of radio programming is discouraging and not something that will promote building ones good character. This service provides hope to lost people, and inspiration to those trying to make the world a better place. Please don't let anything happen to them!! WE NEED K-LOVE!
